

## Education

### University of Waterloo, Class of 2024

BASc. Systems Design Engineering

## Experience

### Duo Security, Product Design Intern

Summer 2022

Designed a new feature in the Duo Admin Panel for Admins to configure settings that increase session security.

### Figma, Product Design Intern

Fall 2021

Created a scalable library filter used throughout the product that increases component search efficiency. Led design of new component update features for over 4 million users. Contributed to the internal design system.

### DOZR, UX Design Intern

Winter 2021

Redesigned DOZR Marketplace listings for contractors to select the right equipment for their jobs. Improved supplier rate-setting process.

### Yonder Media Mobile, Design Intern

Summer 2020

Designed features across the YO mobile app to create a cohesive experience, from ecommerce to livestreaming. Applied cross-cultural research to connect the product language to users in Mexico.

## Community

### Hack the North, Product Designer

2020 - 2021

Designed dashboards to provide information and allow interaction for 3,000+ hackathon attendees, reducing the amount of emails sent. Constructed the first design system to be maintained across dashboards.

### UW/UX, Co-Lead & Branding Lead

2019 - 2021

Supported a team of 9 → 17 to organize events for the design community. Planned our first designathon, TILE, with 5 sponsors and 250+ participants across 12 countries. Led a visual identity rebrand.

## Skills

### Design

User research, visual design, interaction design, prototyping, usability testing.

### Toolbox

Figma, Sketch, Adobe XD, pen and paper, Procreate, HTML/CSS/JS.
