## Experience

### Duo Security, Product Design Intern

Summer 2022

Designed a new feature in the Duo Admin Panel for Admins to configure settings that increase session security.

### Figma, Product Design Intern

Fall 2021

Created a scalable library filter used throughout the product that increases component search efficiency. Led design for a new visual diffs feature, providing more controls for component updates.

### DOZR, UX Design Intern

Winter 2021

Redesigned DOZR Marketplace listings for contractors to select the right equipment for their jobs. Improved supplier rate-setting process.

### Yonder Media Mobile, Design Intern

Summer 2020

Designed features across the YO mobile app to create a cohesive experience, from ecommerce to livestreaming. Applied cross-cultural research to connect the product language to users in Mexico.

## Education

University of Waterloo, Class of 2024

BASc. Systems Design Engineering
