Experience

Duo Security, Product Design Intern
Summer 2022 • Austin, TX (Remote)

Designed a new feature for Admins to increase session security.

Figma, Product Design Intern
Fall 2021 • San Francisco, CA

Worked cross-functionally within the Design Systems team on improvements to the component consumption experience.

DOZR, UX Design Intern
Winter 2021 • Canada (Remote)

Redesigned DOZR Marketplace listings for contractors to select the right equipment for their jobs. Improved supplier rate-setting process.

Yonder Media Mobile, Design Intern
Summer 2020 • New York City, NY (Remote)

Designed features across the YO mobile app to create a cohesive experience, from ecommerce to livestreaming. Applied cross-cultural research to connect the product language to users in Mexico.

Community

Hack the North, Product Designer
2020 - 2021 • Waterloo, ON

Designed dashboards to provide information and allow interaction for 3,000+ hackathon attendees, reducing the amount of emails sent. Constructed a design system to be maintained across dashboards.

UW/UX, Co-Lead
2019 - 2021 • Waterloo, ON

Supported a team of 9 → 17 to organize events for the design community. Helped plan and market our first designathon, TILE, with 5 sponsors and 250+ participants across 12 countries. Redefined the visual identity.

Skills

Design
User research, visual design, interaction design, prototyping, usability testing.

Toolbox
Figma, Sketch, pen and paper, Procreate, HTML/CSS/JS.

Education

University of Waterloo, Class of 2024
BASc. Systems Design Engineering
